

District 41 / April 2014

Treatment Facilities Report

Twin Lakes has been our continuous focus, with us bringing in 2 meetings every other Thursday – one for the men and one for the women. We have had a number of different speakers and chairpersons, with positive feedback on the variety from the patients and counselors.

We've also been asked by Twin Lakes to think about bringing in an ongoing step study meeting, focusing on the first three steps in a workshop format.

If you are interested and/or willing to speak or chair a meeting we would love to have you – talk to me or Natalie.

Heuston, Treatment Facilities Coordinator
