  - attended all of the presentations and sharing sessions
  - served on the Mock General Service Conference Committee for “Cooperation with the Professional Community”, or CPC
  - participated in the Mock General Service Conference at the Pre-Conference Assembly, by:
    - listening to the committee reports
    - voting with consideration to the committee reports and the discussion which followed
  - there was simply too much information for me to make a full report on the GAW in its entirety, see me if you have any questions and I will try to answer them
  
- I discussed progress in finding panel members for our DOS with District 17's DCM
  
- I am updating the GIPS (Group Information Printout Sheets) so that the General Service Office in New York has the correct information for each registered AA group. If I may not have your group's correct information, please contact me or my alternate Bill G.
