

Treatment Facilities District 41

January Report 2006

Currently we have assembled a committee of men and women from the district.

So far we have delivered big books and tapes to the following:

White Deer women & men half way houses

New Visions

Hiram G. Andrews Rehabilitation Center

We still need to reach Twin Lakes. Twin Lakes did stop the meetings, from going into the facility. Currently the White Deer Run women's house has agreed to let the committee members bring in female speakers from the district with at least 2 years of sobriety, one Monday a month starting in February 2006. We have to submit a 6-month calendar with the speakers to the director. Patricia and Karen (myself) are working on this.

Upcoming agenda:

We as a committee are asking the district for a budget to purchase literature and supplies that we need.
